Files Service (files)

Info

Files Service allows you to download and upload any types of files.

To **download** files:

- To download a file you need to send a GET request to the service URL
  `https://login.myadcampaigns.com/advertiser/api/files/{FileID}`.
- In response, you will get a file according to File ID.
- The received File ID will be available for 10 minutes.

To **upload** files:

- To upload a file you need to send a POST request to the service URL
  `https://login.myadcampaigns.com/advertiser/api/files`.
- Content-Type must be set as **"multipart/form-data"**.
- Max file size is 64 Mb.

- In response, you will get Uploaded File ID, that indicates a file in a service storage.
- The received File ID will be available for 10 minutes.
